Wayne,

I gave you a bum steer! According to Kinglsey, well #1 is out of service not #2. Well #1 is sealed and capped. Well #3 is the potable well but can also be used as industrial.

Thanks Ed

Subject: Giant Ciniza water wells

Dear ED,

I received the information on the plant water wells. Per our telephone conversation well #2 is out of service, while well #1 and 4 are your industrial wells and well #3 is the potable well. Do you know if well #2 has been plugged?

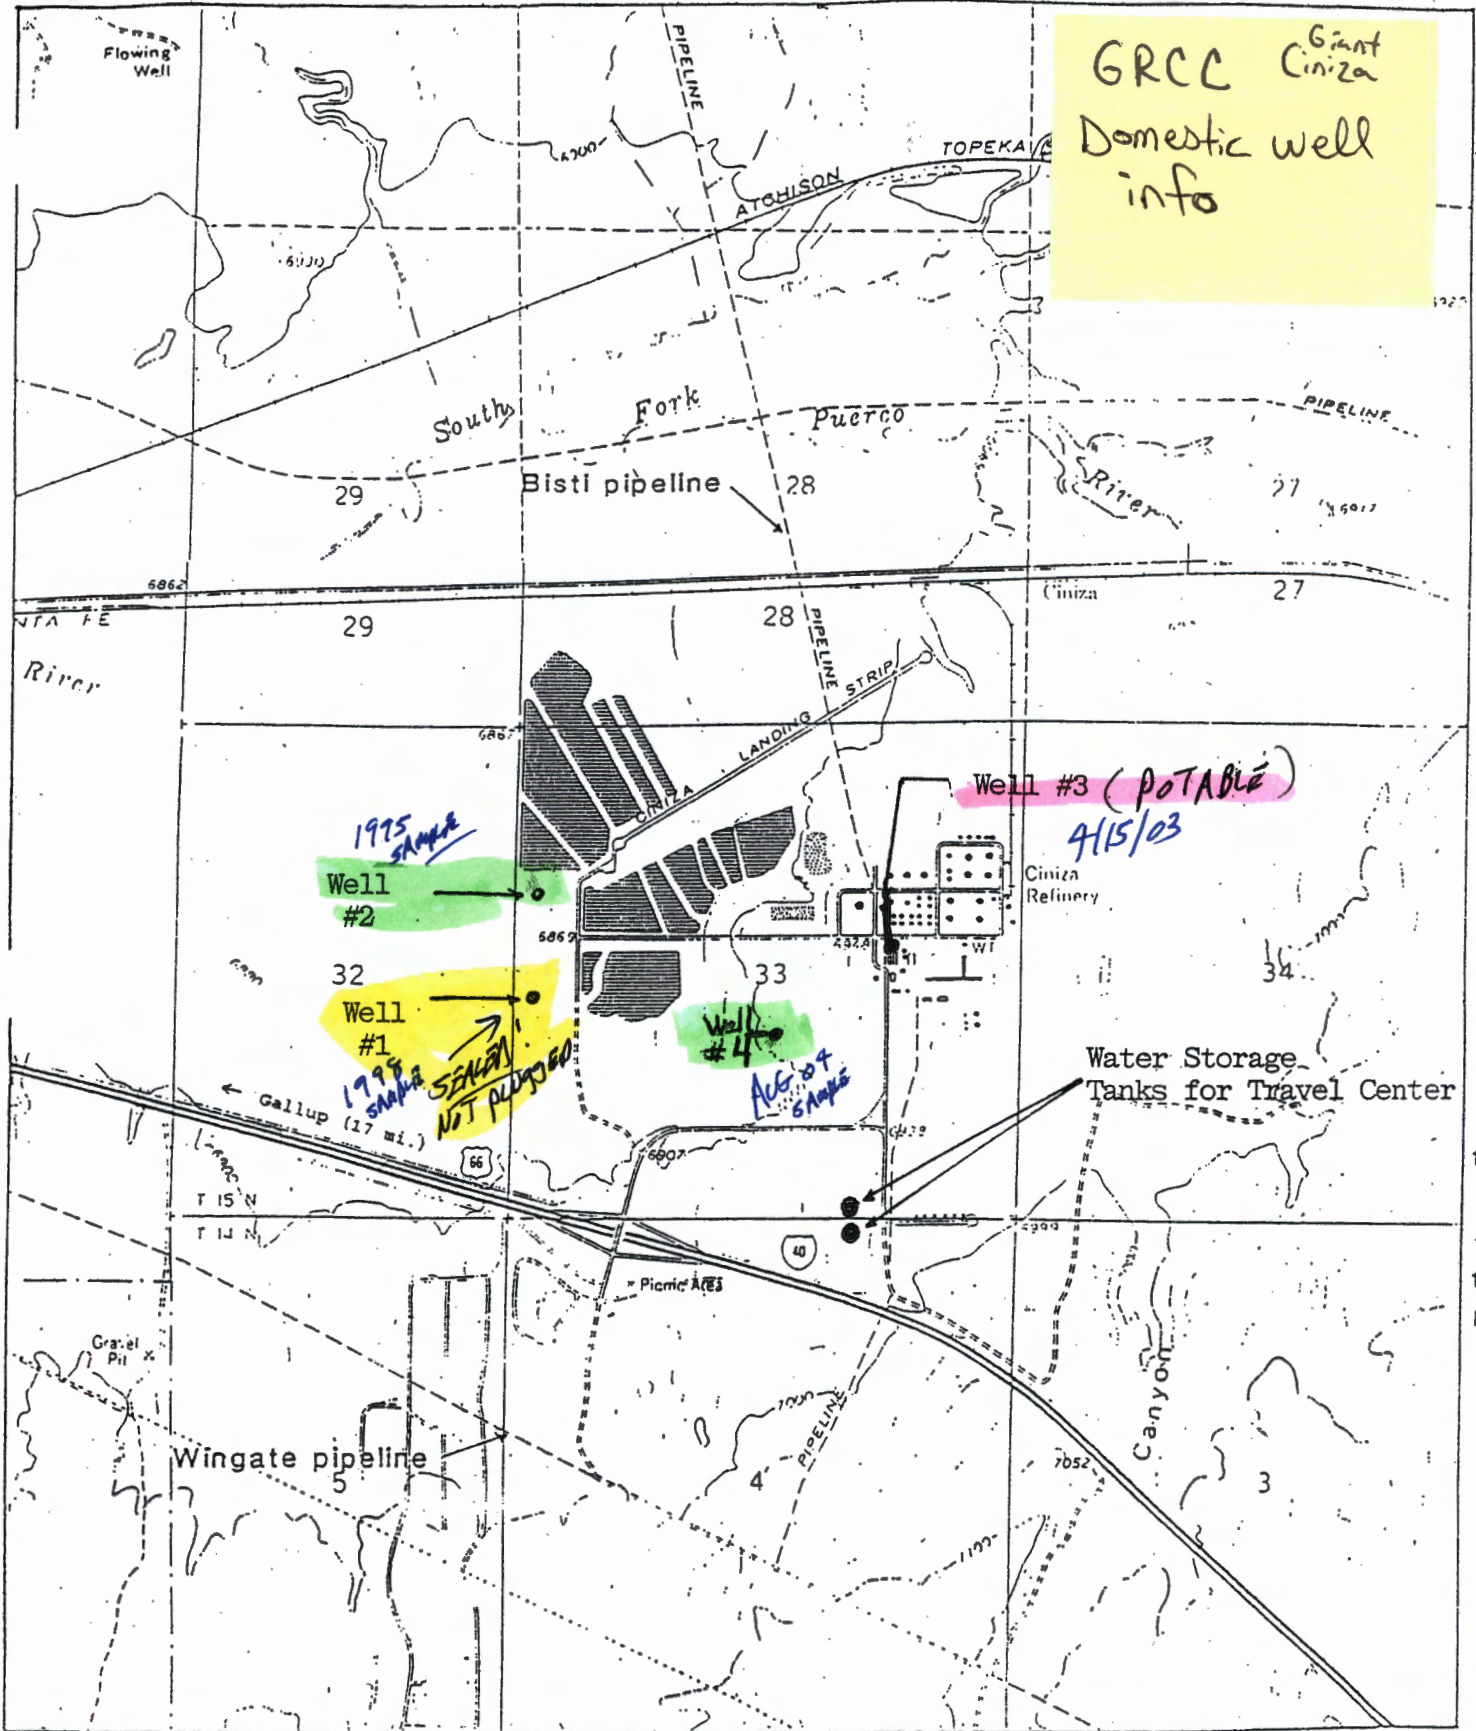

Sincerely:

Wayne Price
