Susan:

Here is some information that might help.

Based on the information in our administrative record, no investigations (sampling) have been conducted at SWMUs 1-7 or AOCs A, B, D, E, G, and H thru L. It is possible that these SWMUs/AOCs could be moved to Table 4-2 or 4-3 in Appendix 4 of the draft permit if appropriate and acceptable documentation (dates of operations, are units still in existence?, were units removed/dismantled....documentation of removal, documentation of spills/clean-ups, photographs, sampling/analysis, etc.) is submitted by WSMR before the finalization of the permit.

Some AOCs have already been moved to Table 4-3 of the draft permit. All other SWMUs will have to go through the process. Some SWMUs (e.g., 8-9, 10-11, 12-13, and 14-15) that are not on WSMRs NFA list may be currently eligible for "corrective action complete" status.

I hope this makes some sense. Please e-mail me if you have any questions. Thanks!
